Several more hard cases have been pardoned by Stoneman and most of them fully as bad as Morrison.

The | bility of starting up the old slaughgeneral idea is, that Nevada has a Idaho to help pay in exchange for giving her the privileges of a State. Of course Idaho taxpayers would object to that. I find however upon investigating the condition of your State finances that we have been under a misapprehension regarding the State debt, as you have a condition of finances enjoyed by few States in the West. I think there will be a change of sentiment when this is understood.

Yes, of course politics would cut a figure but no Gentile in Idaho would favor this scheme, unless the Mormons were disenfranchised as they have been in other States outside of Utah. If the Mormous were put out of calculation it would leave politics about where they are now. We are about evenly divided on party questions and we also would have very nearly the same voting population at our end as you have here. I do not think that politics ought to cut much figure. but of course the politicians will calculate all these things. I think when they all get through calculatchances.

You have wealthier men here than we but I think our wealth is The character of the Chronicle's more evenly apportioned. We have run in old ruts. They think they smell some job and you cannot convince them that there is not one.

Labor Lunatics.

The various Trade Unions throughout the United States seem, as a general thing, to want to be independent of the Knights of Labor so long as they are getting along all right. When they get into trouble and contemplate a strike, they join the K. of L., and before they learn anything of its workings they enter into a struggle with some big corporation, expecting the million members of the Order throughout the United States to help them through the strike and contribute so much a week to their support. They then realize that the Order discountenances strikes and will not permit one without first investigating the causes of it. And because the Order refuses any assistance they commit various exceases, and the papers attribute the trouble to the Knights of La-
